## ABOUT THE PROJECT "BŘEVNOVSKÁ ZÁVĚRKA"

The Břevnovská Závěrka project was inspired by its surroundings. Břevnov is a place where history meets the present, and yet it still retains its unique charm. It is a city part with a rich community life offering all services within walking distance, including international and state schools and kindergartens.

## LAYOUT OF THE APARTMENTS

The new apartment building will be divided into three sections overall and will feature 42 apartments with layouts ranging from 2+kk to 4+kk. The apartments come with balconies, terraces, or front gardens. Residents will also have access to a shared garden. The project, spanning three to four floors, also offers parking in underground garages and cellars.

From the standard equipment we can mention: windows with insulating triple glazing, multilayer wooden floors, large-format tiles and ceramics, seamless interior doors, premium sanitary ware and plumbing fittings, underfloor heating, and security entrance doors.

Completion of the project is planned for the spring of 2027.
